

Consumption

The only kind of consumption to fear is "neglected consumption."

People are learning that consumption is a curable disease. It is neglected consumption that is so often incurable.

At the faintest suspicion of consumption get a bottle of Scott's Emulsion and begin regular doses.

The use of Scott's Emulsion at once, has, in thousands of cases, turned the balance in favor of health.

Neglected consumption does not exist where Scott's Emulsion is.

Prompt use of Scott's Emulsion checks the disease while it can be checked.

AMERICA MARU IN VAN OF ADMIRAL TOGO'S FLEET

One, at least, of the three "Marus" of the Toyo Kisen Kaisha line, said to be with Togo's fleet, is likely to be heard from in the coming battle. Manila papers state that a dispatch received from Singapore late last month is to the effect that the Japanese cruisers Kasagi and Chitose and the auxiliary cruisers America Maru and Yawata Maru had anchored six miles off Singapore. The America, Hongkong and Nippon Maru are scout ships.

Not entirely unexpected was the arrival of a Japanese squadron here, says the Singapore Free Press of March 15, although

JAPANESE CONVERTED CRUISER AMERICA MARU.
Former Toyo Kisen Kaisha liner which formed a part of the scouting squadron off Singapore.

when the Japanese flag went up at Fort Canning at seven o'clock this morning it somewhat anticipated the expectations of even the well-informed.

The warships were sighted from Mt. Faber at seven o'clock and were promptly reported as four in number, two cruisers, a converted cruiser and a store-ship. The composition of the squadron is "Kasagi" (flagship), "Chitose," "America Maru" and "Yawata Maru."

The cruisers came in straight from the East and anchored about 4 1/2 to 6 miles out, well beyond the harbor limits, the Chitose to the north, the Kasagi central, and the Yawata Maru to the southward. Well down on the horizon was the Amerika Maru, the converted Toyo Kaisen boat, which has been in Singapore before. She apparently anchored ten or twelve miles out, possibly to form a link in a chain to whatever other ships may be outside. She came up to the anchorage of the other ships at eleven o'clock, and the four vessels formed a conspicuous and formidable like little fleet to the east of the harbor.

Coming up to the cruisers, their formidable appearance was most striking.

The Kasagi and Chitose, it may be remembered, are American built ships, the former being built at San Francisco and the latter at Philadelphia, both completed about five years ago. They bristle with guns, each having two 8 in., ten 47 in., twelve 12 prs. and smaller guns. Handsome vessels they are, low in the water, with fine lines showing that their 22 1/2 knots is not merely a nominal speed. Spick and span from end to end, the crew were carefully removing traces of bad weather from their sides, and all was busy activity and order.

The Amerika Maru is well known in the East, as she used to be on the Pacific run.

FREE TO MEN!

A BOOK FULL OF FACTS ABOUT

DR. McLAUGHLIN'S ELECTRIC BELT FOR WEAK MEN

I KNOW THAT NO MAN REMAINS A WEAKLING BECAUSE HE WANTS TO; I am sure that you want to overcome every indication of early decay that has shown itself on you. I don't think the man lives who would not like to feel as big and strong as a Sandow, and I know that if you have a reasonable foundation to build upon I can make you a bigger man than you ever hoped to be. I want you to know that, you who can't believe it, and I want you to have my book, in which I describe how I learned that manly strength was only electricity and how I learned to restore it; also I want to tell you the names of some men who will tell you that when they came to me they were physical wrecks and are now among the finest specimens of physical manhood.

I want you to read this book and learn the truth about my arguments. If you are not as vigorous as you would like to be, if you have rheumatic pains, weak kidneys, loss of vitality, prostatic troubles, nervous spells or any ailment of that kind that unmans you, it would assure you future happiness if you would look into this method of mine. Don't delay it, your best days are slipping by. If you want this book I send it closely sealed, free, if you send this ad.

WEEKLY CROP BULLETIN.

For the Week Ending April 22, 1905.

Honolulu, T. H., April 24, 1905.

GENERAL SUMMARY.

The weather of the past week has been most favorable for growing crops and agricultural operations in nearly all portions of the group. Temperatures have ranged slightly above the seasonal normal, moderate trade winds have prevailed, and light showers have fallen at intervals in most sections.

Young cane has, on the whole, made very satisfactory growth, although still suffering somewhat from the effects of the drought in the Kau district of Hawaii and portions of Kauai. In most localities the showers have been sufficient to keep the soil in good condition and afford an adequate supply of water for irrigation purposes without interfering with field operations in the plantations, and the harvesting and planting of cane have therefore proceeded rapidly. Pastures have improved materially, except in certain leeward sections where more rain would be beneficial. Pineapple plants are growing nicely, and the condition of coffee trees in all sections has been much improved by the recent showers. Early vegetables are coming into market in very satisfactory quantities, and the favorable weather for planting is being taken advantage of by truck growers generally. Growing rice continues in good condition. The cutting and milling of sisal in the Ewa district of Oahu began last week.

REMARKS BY CORRESPONDENTS.

ISLAND OF HAWAII.

Kaunakakai—Very good growing weather, and crops doing well; pastures and grazing stock in good condition; harvesting cane, plowing land, and preparing rations for crop of 1907.—J. E. Gamalison.

Hilo—Fair weather with occasional showers; crops and pastures looking well.—L. C. Lyman.

Papaikou—Weather all that could be desired; crops doing well; harvesting, plowing, planting, stripping.—John T. Moir.

Pepeskee—Weather all right; cutting cane, grinding, plowing and planting. Jas. Webster.

Honolulu—Good showers first part of week; last few days dry and warm; cane all growing well; harvesting and planting.—Wm. Pullar.

Laupahoehoe—Fine weather, with warm days and showers at night; strong trades; all crops looking well.—E. W. Barnard.

Ookala—Weather fair, with easterly winds; harvesting and planting cane.—W. G. Walker.

Paahoa—Steady trade winds throughout week, with heavy rain on evening of 15th; cane crops in fine condition.—H. Glass.

Honolulu—Good rain during night of 15th and again on 18th; weather warmer, with plenty of moisture in soil, and favorable for all field work; plowing, planting, hoeing, fertilizing and harvesting cane.—C. H. Bragg.

Niuli—Moderate trade winds continue, with sufficient rain to keep the soil moist, and with the higher temperature we have had a good week for growth; preparing land and planting; hoeing young cane; harvesting cane.—Robt. Hall.

Kohala—Weather good for cane growth, although higher temperature would be beneficial; crops looking well.—W. O. Taylor.

Kohala Mission—Weather showery and warm, and therefore favorable for growing crops and agricultural operations.—Dr. B. D. Bond.

Puakea Ranch—Warmer weather, with some rain, is proving very beneficial to both pastures and stock.—A. Mason.

Kamuela—Partly cloudy weather with occasional showers; weeds growing rapidly where crops are not already starting.—Mrs. E. W. Hay.

Puuwaawaa—Light showers every day.—Robt. Hind.

Kealahou—A good rain on 14th has been followed by showers nearly every day since; weather also warmer, and vegetation making a good start.—Robert Wallace.

Kau—Light showers during week have improved conditions slightly.—F. H. Hayselden.

Naalehu—Weather still quite dry; strong trades for the last day or so.—G. G. Kinney.

Pahala—Light showers during early part of week, but not heavy enough to make any appreciable improvement in the condition of crops.—H. D. Harrison.

Kapoho—Week characterized by return of dry weather, with easterly winds.—H. J. Lyman.

Oahu—Warm days, with a fair amount of sunshine; 1.56 inches of rain during week.—E. P. McCann.

ISLAND OF MAUI.

Kipahulu—Light showers during week, and good growing weather, harvesting cane; plowing and fertilizing.—Andrew Gross.

Nahiku—Warm weather with light showers throughout week; vegetation of all kinds doing nicely; cattle and other stock in good condition.—C. O. Jacobs.

Huelo—Weather conditions continue favorable; vegetation and stock of all kinds in good condition; 2.55 inches of rain during week.—W. F. Pogue.

Haiku—Weather conditions of the week very favorable for plant growth; pineapples, sisal, and garden truck advancing finely; pastures and grazing stock in good condition.—D. D. Baldwin.

Pala—Fine weather with occasional showers; growing crops in good condition; the local yield of sugar is the best which has ever been obtained here.—J. J. Jones.

Makawao—Favorable conditions all week for growing crops and pastures; rather strong trades with partly cloudy weather, but no rains; the planting of corn and potatoes still continues; early peas, beans, squashes and pumpkins are bearing; peaches and figs are ripening; stock doing well.—E. H. Bailey.

Kahului—Showers during early part of week; very little wind and weather getting warmer.—R. W. Filler.

Puunene—Threatening weather towards end of week, but no rain fell here; raining at ditch heads, however,

and all pumps idle; excellent weather for harvesting.—J. N. S. Williams.

Wailuku—Generally favorable weather conditions throughout week; grass reported good and growing vegetables show improvement; fruit trees in good condition.—Bro. Frank.

Kihui—Weather somewhat warmer during week, but still dry and with no immediate indications of a change; ditches going down; harvesting cane; fertilizing and plowing.—James Scott.

Olowalu—Weather warm and clear during week; several heavy mountain rains, and streams all full; harvesting cane.—George Gibb.

Kaanapali—Light showers during early part of week, followed by strong northeasterly winds; growing cane looking well; pastures improved, but needs more rain.—Wm. Robb.

ISLAND OF OAHU.

Waimanalo—Weather warmer, with a good rain during first part of week.—A. Irvine.

Maunawili—Weather warm and showery; coffee and pastures much improved.—John Herd.

Ahuimanu—Warm and showery this week, and everything in good condition.—E. Knust.

Sisal—Dry weather still continues; several light showers during week, but not sufficient to change conditions much; sisal mill running.—Wm. Weinrich, Jr.

Waianae—Dry and warm weather still continues; cane progressing, but pasture lands need rain.—F. Meyer.

Waiawa—Showers during week, and appearance of pineapple plants much improved, but more rain is needed.—W. R. Waters.

Kahuku—Heavy showers on 15th, but otherwise weather dry; warm sunny days; harvesting and milling cane.—R. T. Christophersen.

ISLAND OF KAUAI.

Makaweli—Very warm all week; good growing weather, but drought still continues; plowing land and grinding cane.—Hawaiian Sugar Co.

Eleele—Little change in weather, which is still warm and dry except for light showers at long intervals.—McBryde Sugar Co.

Koloa—Showers during early part of week, and pastures in good condition; planting and harvesting cane.—P. McLane.

Lihue—Have had a few good showers of rain which have been very beneficial to all vegetation; days are getting warmer.—F. Weber.

Keala—Dry, warm weather; good supply of water in reservoirs as a result of last week's rains in mountains; pastures very dry.—W. Jarvis.

Kilauea—1.71 inches of rain during week; condition of pastures much improved, and reservoir water supply much increased; weather conditions most favorable for growing cane.—L. B. Boreiko.

Henalei—Good showers early in week, and upland pasture in good condition; rice growing well.—E. G. K. Deyverill.

A. McC. ASHLEY,
Section Director.

LOCAL SHOPS BUILD CAR FOR KAHULUI

Superintendent R. W. Filler of the Kahului railroad is in the city to accept from the Oahu Railway & Land Company a new passenger coach just turned out of the local shops. The car is the finest ever built in the Islands and will add materially to the Kahului railroad's equipment. The coach is designed to carry, in compartments, first and second-class passengers, as well as freight. It is fitted with electric lights. It cost about \$5,000.

The car will be taken to Kahului on the deck of the steamer Nevada, just as it comes from the shops. The car was built under the supervision of John A. Hughes.

YOU RUN NO RISK.

You need not hesitate to buy Chamberlain's Cough Remedy. If you are not satisfied with the results after using two-thirds of the bottle according to directions you may return it to your dealer and your money will be refunded. Here is what the Greer Drug Co., Granite, Oklahoma, U. S. A., says concerning it: "We feel free to guarantee every bottle for we know we will not have to redeem them."
